

HAVAL H6

Power to excite

The Haval H6 matches the performance of a powerful turbocharged 2.0-litre direct injection engine with a Getrag six-speed dual clutch transmission (DCT). The DCT combines all the advantages of manual and automatic transmissions to deliver fast, smooth gear changes with maximum efficiency. And when the mood takes you, paddle shifters and a sport mode are standard equipment to give you even more control and fun.

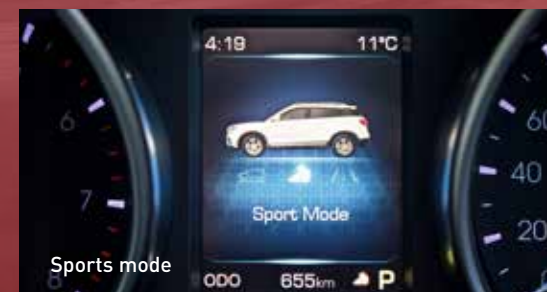

Powerful 145kW 2.0-litre turbocharged direct injection engine and 6 speed DCT with sports mode.

European-inspired driving dynamics

With European engineering inspiration it's no surprise the H6 drives and handles so well. Independent MacPherson strut suspension at the front combined with a double wishbone independent rear, sports steering and tuned exhaust makes the H6 a true driver's SUV. The H6 puts the "sports" back into S.U.V.

Independent front and rear suspension

Exhaust tuned acoustics

Enjoy every drive

Every drive in the Haval H6 is special. Soft-touch textures, seating that provides comfort and support for all occupants and a multimedia system are all designed to make every drive a special event. The LUX model features a stunning opening panoramic moon-roof and an electric sunshade that keeps you in touch with nature, while protecting you from any harmful elements. Colour selectable mood lighting (red, green, orange, blue, yellow and pink) allows you to change the environment to suit your individual taste.

Step in to a new world of comfort

Beautiful interiors combining the finest materials and exacting production standards are Haval trademarks. The H6 continues this tradition with French-style double stitching and a multi-function steering wheel where the controls fall easily to hand. For comfort the H6 offers dual-zone climate control and on the LUX heated seats.

Technology that enhances every drive

At Haval, we incorporate technology to help you on every drive. Like keyless entry and start so you never have to fumble for your keys again. Or on the LUX model self-leveling headlights that maximise illumination and safety.

A high fidelity surround sound system with an acoustic insulated cabin combine to bring out the best in your music.

Quality and safety come standard

HAVAL H6 is created with a high tensile steel passenger compartment, heavy gauge sheet metal and is precision engineered to fine tolerances for strength and torsional stiffness.

The quality is evident in the reassuring “thud” each time you close the doors.

Safety is taken care of

The Haval H6 comes equipped with an armory of the latest electronic aids designed to make every drive a safe one for you and your most precious cargo. Blind spot monitoring is standard in every H6, as well as front and rear parking sensors and reversing camera.

The H6 incorporates the latest Bosch Electronic Stability Program and a suite of tools including Electronic Brakeforce Distribution, ABS anti-lock braking, Traction Control, Hill Descent Control, Hill-Start Assist Control, an Intelligent Park Brake and a Tyre Pressure Monitoring System all working behind the scenes to maximise your safety.
